Notes and References

The data presented on this sheet were generated from the following sources:

All vital statistics data, namely, births, deaths and their related subcategories for the District of Columbia were obtained from the State Center for Health Statistics Administration. Population data for the District of Columbia were obtained from the Office of Planning, State Data Center. Vital statistics data for the United States were obtained from the National Vital Statistics Reports, *Deaths: Final Data for 2001*, Vol. 52, No. 3 (U.S. DHHS, CDC, NCHS) and *Births: Final Data for 2001*, Vol. 51, No. 2 (U.S. DHHS, CDC, NCHS). Census 2000 population data for the United States were obtained from the U.S. Department of Commerce, Bureau of the Census. Ward data for the District of Columbia might not add to the total due to unknowns. Persons of Hispanic origin may be of any race.

Footnotes:

¹Total Population is the sum of six single race categories (White, Black, American Indian and Alaska Native, Asian, Native Hawaiian and Other Pacific Islander, and some other race) and two or more races.

²Asian and Pacific Islander include Asian, Native Hawaiian and Other Pacific Islander categories.

³Birth rates per 1,000 census 2000 population in each area (ward).

⁴A birth to an unmarried mother is one that has occurred to a mother who was not married at the time of birth or who was separated from her spouse and had not been living with her spouse or married any time during the preceding 10 months.

⁵A low birth weight birth is defined as a weight at birth under 2,500 grams, or five pounds and eight ounces.

⁶Adequate prenatal care is based on care initiated in the first trimester with a minimum of nine prenatal visits.

⁷Excludes not stated from total number of births before percentages were computed.

⁸Final figures for D.C. deaths after file editing.

⁹Crude Death Rates are per 100,000 population.

¹⁰An infant death is the death of a child under one year of age.

¹¹Infant Mortality Rates are per 1,000 live births.
